

## Text Formatting on different Apps

### WhatsApp

Style	Format	Description
Italic	<code>_text_</code>	To italicize your message, place an underscore on both sides of the text
Bold	<code>*text*</code>	To bold your message, place an asterisk on both sides of the text
Strikethrough	<code>~text~</code>	To strikethrough your message, place a tilde on both sides of the text
Monospace	<code>```text```</code>	To monospace your message, place three backticks on both sides of the text
Quote	<code>&gt; text</code>	To add a quote to your message, place an angle bracket and space before the text
Inline code	<code>`text`</code>	To add inline code to your message, place a backtick on both sides of the message
Numbered list	<code>1. text</code> <code>2. text</code>	To add a numbered list to your message, place a number, period, and space before each line of text
Bulleted list	<code>* text</code> <code>* text</code> Or <code>- text</code> <code>- text</code>	To add a bulleted list to your message, place an asterisk or hyphen and a space before each word or sentence
